Dr. Adin Sherman

My dear Dr.:

Supt  
Winnabago

Not long ago one of  
your attendants, Mr. Sandman  
was with us on a brief visit <sup>and</sup> I  
was sorry that I had not the pleasure  
of seeing him personally.

However he assured us that you  
are in the best of health though  
overburdened with work, owing  
to the scarcity of help which on  
account of the war seems to have  
become a most embarrassing  
problem <sup>and</sup> so much so that

according to this man's statement  
you are now obliged to employ female  
Att'd's on the male wards. Well, your  
namesake was right - War is hell - let  
us hope that the present Allied drive is  
the beginning of the end - There is really  
little news otherwise - I've tried to make  
myself useful on the farm this summer  
yes, a few of our patients made their  
get-away not long ago - but that can  
hardly interest you, since such things  
occur not infrequently in your own  
hospital -

Thanking you for past favors  
and hoping to see you soon  
I remain  
Yours truly  
John Flammang Pchank.
